PROFESSIONAL EXPERIENCE

01/2022 - 04/2022

Caisse d'Epargne | Strasbourg | Internship

Web / Application Development

- Software Development: created, and implemented an application in PHP/Query/Oracle
- Documentation revision

04/2021 - 07/2021

Agile Business Agency | Geudertheim | Internship

Web Development

Created, developed, and implemented a Web Site based on CMS Word press: PHP, HTML, CSS, MySQL, Javascript, API etc.

PROJECTS

Worked on a copy of the famous E-commerce WebSite Amazon:

- Creation of an API with nodeJs/Express to get, add, update, or delete the products
- Use of the Js framework Nuxt.js for the Front part (Axios to call the API)
- Use of the S3 of AWS (Amazon Web Services) to store the images in the cloud

Worked on the Development of an Auto-Saving Backups

Application in C#:

- The application allows you to perform several backups at the same time using multithreading
- Use of design pattern to improve the maintainability of the application

HOBBIES

Coding and Programming, Piano, Listen/Composing Music
